

DATA SHEET: 8 INCH LED SLIM RECESSED LIGHT WITH JBOX (3 CCT ADJUSTABLE)

PRODUCT DESCRIPTION

The Super Slim Recessed LED Lights raise the standard for recessed lighting. Each fixture is designed for small spaces where height clearance is limited, such as beams or duct work. They are super easy to install and are IC rated meaning they can be in direct contact with insulation without overheating and do not require any can or housing. The lights are ETL listed, featuring fantastic energy efficiency. Damp rated and airtight, these ceiling light kits are perfect for bathrooms, drop ceilings and large space general lighting applications.

PRODUCT FEATURES

- 3000K-4000K-5000K 3 color temperature selectable.
- 100%-5% TRIAC smooth dimming capabilities, no noise and no flicker.
- SMD LEDs are super bright, high intensity and low power consumption
- Fixture is IC rated and suitable for direct contact with insulation
- Easy to install and mount, featuring integral spring fixture retention clamps
- Ultra-thin Design, only 0.94inch thickness.
- Virtually no UV or IR radiation
- Working Temperature: -20°C +40°C.
- Limited Warranty: 5 year.
- Extremely long life: up to 50,000 hours
- ETL, FCC, CE listed.
- Maintenance free

223mm

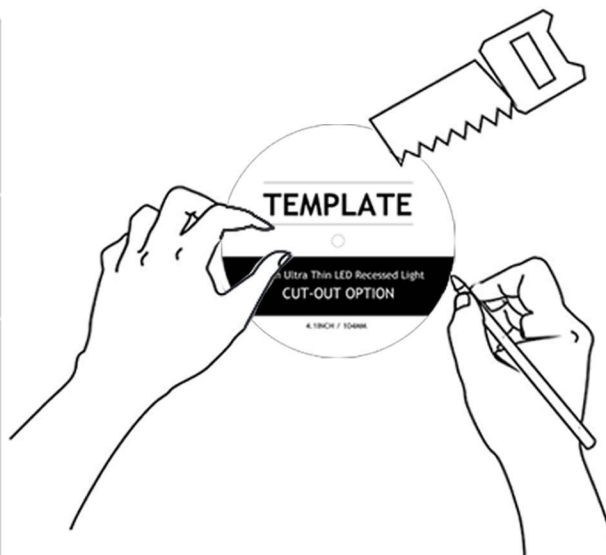

Cut Hole (b)
208mm

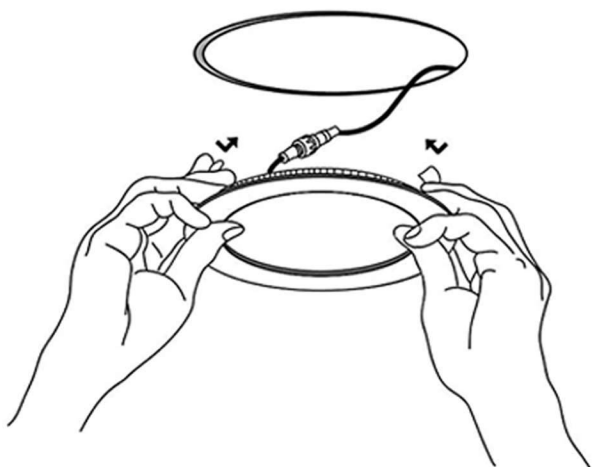

Easy Installation

1. Plug the wires into connector, easy and safe

2. Draw the size of panel lamp with 1:1 paperboard and cut out the shape according to the track

3. Connect the fixture with the hardwire box, Push spring loaded clips on the fixture upwards and insert fixture base in to the mounting hole

4. Push the light into the ceiling

Tip: If you are not comfortable working with electricity, call a licensed electrician to complete your installation rather than learning how to install recessed lighting yourself.
